

Clean profile. Clean functionality:
HANSAPRIMO.

 **HANSA**
experience water

Optimum use of resources: The new HANSAPRIMO.

Optimum use of resources: HANSAPRIMO shows how it's done. Classic lines, but plenty of exciting contrast between plane geometrical surfaces and softly rounded volume. HANSAPRIMO's proportions are as modern as its watersaving capabilities for

responsible use of our water resources. More than just great looks – material, technology and workmanship are all of the highest quality. Friendly, down-to-earth and clever!

Half is enough:

Our pressure-independent flow restrictor

Water is our element. Therefore we have a special responsibility towards preserving the quality of this valuable resource which we use every day as a matter of course. A special stream formation unit limits the flow rate from 12 l/min to 6 l/min for all HANSAPRIMO washbasin mixers. Even though the flow rate is reduced by half, the stream remains pleasantly full-bodied.

At least one product in the relevant range features the assigned property.

Optimized water consumption for full comfort by restriction of the low rate to 6 l/min and intelligent forming of the steam.

Extremely quiet.
Fitting fulfils the strict requirements of noise class 1.

WATER SAFE. Hi-tec functional core.
Preserves the water quality.

Washbasin

HANSAPRIMO one-hole single-lever basin mixer, DN 15
4940 2203 chrome,
4957 1103 chrome †
pop-up waste (metal),
connection with flexible
hoses G 3/8
projection: 107 mm

HANSAPRIMO one-hole single-lever basin mixer, DN 15
4940 2203 chrome
without pop-up waste,
connection with flexible
hoses G 3/8
projection: 107 mm

Bidet

HANSAPRIMO one-hole single-lever mixer, DN 15 for bidet
4943 3203 chrome
pop-up waste (metal),
connection with flexible
hoses G 3/8
projection: 107 mm
